THE CHILIAN REVOLUTION.
Puento del Rio, February 18th.—Sres.
Bastanoso and Joaquin Lynch, officers of
the Chilean army, left here on their way
to Buenos Aires to-day. It is reported
that they are authorized by the Govern-
ment to take over the command of the
Piscoyago and Almirante Condell.

THE WRONG TRACK.
If good intentions could save the country
in its present crisis the actual Cabinet
would doubtless succeed in doing so, but
learned writers assure us that the
Government is on the wrong track.
The experience of every day shows us
that the Government is going from
bad to worse, and the lesson is ap-
parently lost upon our rulers, legislators
and journalists, who ascribe the
present deadlock to a variety of causes
which have little or nothing to do with
the evils that weigh us down.

A detailed black and white illustration of a portable steam engine. The engine features a large horizontal boiler with a tall, slender smokestack at the front. A large flywheel is visible on the side, connected to a piston mechanism. A small, ornate seat is mounted on top of the boiler. The engine is supported by four wheels: two large spoked wheels at the rear and two smaller solid wheels at the front. A horizontal beam or lever extends from the side of the boiler. The entire machine is shown on a rough, uneven ground surface. Above the illustration, the text "189—DEFFENSA—189." is printed in a bold, serif font.

Volzseley Sheep Shearing Machine
Company, limited.
Cabaña del Rincón,
Propiedad del Señor Don Tomas Bell,
Estacion Pereira, 18th Sept. 1890

Dear Sirs,

I have great pleasure in reporting favorably of our "Wesley Sheep Shearing Machine." Up to date we have shown upwards of 300 Lincoln Rams and Borraques, and it is quite up to our expectations. It is simple and easily handled, and in no way complicated or difficult to understand or work, and so far it has never been out of order. It shears the sheep beautifully. It does them quicker and considerably better than it is possible to get them done by hand, and saves the poor animal a great amount of abuse, if I have missed our American Shearer here, and find he can show upwards of 50 in the hour. Consequently, I consider the Wesley Machine one of the best ones I have yet seen, in proof of which I intend having some more put up at an early date.

Yours very truly,
WILLIAM RIDDICK.
